**DETAILED ACTION**

*Allowable Subject Matter*

1. Claims 38-42 are allowed over the prior art of record.
2. The following is an examiner's statement of reasons for allowance:

Regarding claim 38, the prior art fails to disclose or make obvious a method for collecting body fluid from the skin having the steps of providing a sampling device comprising a base, a sample needle having an axis and a distal end, a first pressure surface distinct from said base and at least partially surrounding said needle in spaced relation thereto, wherein said needle and said first pressure surface are movable relative to one another and to said base along a path of travel generally parallel to said axis with said needle, and a second pressure surface at least partially surrounding said needle; the second pressure surface fixed relative to said needle and movable relative to said base; said second pressure surface axially spaced from said distal end of said needle by a distance approximating a desired penetration of said needle into said skin, and in combination with the other recited limitations of claim 38. Claims 39-42 are allowed by the virtue of dependency on the allowed claim 38.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
